FROM THE EXECUTIVE

It was reported in the Missouri State Board of Nursing Newsletter of August, 1983, that the Board had invited representatives from various nursing organizations to attend a meeting concerning the issue of LPN's and the administration of intravenous fluid treatment. That Task Force, which was made up of representatives from the Missouri LPN Association, the Missouri Federation of LPN's, the Missouri League for Nursing, the Missouri Nurses' Association and the Missouri Association of Nursing Service Administrators, met on July 30 and August 22, 1983. The Task Force presented a Report and Recommendations to the Missouri State Board of Nursing on August 31, at the meeting held in St. Louis. The Board accepted the Report and Recommendations and drafted proposed legislation. That legislative draft has been accepted and is currently in special session as House Bill 8 and Senate Bill 5. That legislation reads as follows:

H.B.8 and S.B. 5

Section 1. Chapter 335, RSMo, is amended by adding thereto one new section, to be known as section 335.017, to read as follows:

335.017. One of the selected acts which may be performed by persons licensed under the provisions of this chapter as licensed practical nurses is the administration of intravenous fluid treatment. The administration of intravenous fluid treatment may be performed only by licensed practical nurses who have been instructed and trained in such procedures in a course of instruction approved by the board. The board shall have the authority to adopt and revise rules and regulations which limit and define the scope of intravenous fluid treatment which may be performed by licensed practical nurses. Nothing herein shall be construed as prohibiting administration of intravenous fluid treatment by registered professional nurses. The board shall submit emergency rules to the secretary of state to implement the provisions of this section within thirty days of the effective date of this act and the board shall act promptly on applications of organizations requesting approval of their course of instruction.

Section A. Because there is a serious need to protect the quality of health care in this state, this act is deemed necessary for the immediate preservation of the public health, welfare, peace and safety, and is hereby declared to be an emergency act within the meaning of the constitution and this act shall be in full force and effect upon its passage and approval.

H.B. 8 is sponsored by Representatives Grisham, Hill and Mitchell, co-sponsored by Morrison, Binger and Ellis. S.B. 5 is sponsored by Senators Webster, Russell and Dirck.

The Board of Nursing is in support of H.B. 8 and S.B. 5, as they are currently worded. This legislation, when and if enacted, will give the Board of Nursing the authority to adopt and revise rules and regulations which limit and define the scope of intravenous fluid treatment which may be performed by licensed practical nurses. A draft of a proposed rule and regulation has been accepted by the Board. The Board will meet in special session after the legislation has been passed, to finalize the proposed rule and regulation prior to filing. The rule and regulation will then be published in the Missouri Register and a time frame will be given for receipt of public comments. It has not been determined at this time if the Board will schedule public hearings throughout the state. After receipt of public comments, the Board will again meet in special session to review those public comments prior to finalizing the rule and regulation.

It was a pleasure to observe the Task Force in action. The group was comprised of various levels of nursing, coming from many differing viewpoints and representing the major nursing organizations within the state. Everyone in the group made compromises and the final Report and Recommendations represents many hours of hard work involving a very emotional issue for nurses.

The Board of Nursing wishes to express its thanks to the persons who so diligently served on the Task Force and presented to the Board a concise, well-planned document. The essence of that document is the basis for the proposed rule and regulation.

Mary Sue Hamilton, R.N.

RULES AND REGULATIONS

4 CSR 200-4.021 Graduate Temporary Permit - This proposed rule was filed on 9/13/83, published on 10/1/83 and the Order filed on 11/9/83. It will be published in the December Missouri Register to become effective on 12/11/83. The proposed rule reads as follows:

(1) In order to establish a system whereby individuals recently graduated from nursing programs in another state, territory or foreign country and potential Missouri employers can determine whether or not the graduate may practice under the exemption found in section 335.081 (6), RSMo, there is hereby created a Graduate Temporary Permit. Issuance of the Graduate Temporary Permit is not a prerequisite to practice under the exemption found in section 335.081(6), RSMo.

(2) The following conditions must be met before a Graduate Temporary Permit will be issued:

- (A) The individual must provide the following information on a form provided by the Board:
1. Full name
 2. Address of individual
 3. Name of school of nursing
 4. Address of school of nursing
 5. Date individual graduated from school of nursing.

(B) The form must be signed by the individual. The individual must then send the form to the government agency which regulates nursing in the state or territory in which the individual is scheduled to take the licensure exam or the state or territory in which the individual took the licensure exam.

(C) The government agency must send the form directly to the Missouri State Board of Nursing. The government agency must include the following information on the form:

1. That the individual is scheduled to take the licensure examination or that the individual has taken the licensure examination;
2. The date(s) on which the individual is scheduled to take or took the licensure exam;
3. Whether or not this will be or was the individual's first time to take the licensure exam;
4. The approximate expected date of the test results of the examination;
5. The approximate date that the government agency will endorse the individual to Missouri, if applicable;
6. The signature and title of the government official who completed the form;
7. The state or territory in which the government agency is located;
8. The date on which the government official signed the form, and
9. The seal of the government agency, if applicable.

(D) The Board may, at its discretion, accept an official school transcript specifying graduation date instead of the information provided directly by the government agency. Applicant must provide directly to the board the information requested on the top portion of the application.

(E) The individual must, to the extent possible, complete the Application for Licensure in Missouri and file it with the Missouri State Board of Nursing, accompanied by the fee required for licensure in Missouri.

(3) The Graduate Temporary Permit will automatically terminate and expire if the individual does not successfully pass the licensure exam. At that time, the individual will no longer fall within the exemption found in Section 335.081(6), RSMo and the individual may not perform the functions or duties of a professional nurse or practical nurse in the State of Missouri.

4 CSR 200-4.020 Requirements for Licensure - This proposed amendment was filed on 9/13/83, published on 10/1/83 and the Order filed on 11/9/83. It will be published in the December Missouri Register to become effective on 12/11/83. The amendment reads as follows:

(4) Interstate Licensure by Endorsement in Missouri--Professional Registered Nurses and Licensed Practical Nurses:

(A) A professional/practical nurse licensed in another state or territory of the United States shall be entitled to licensure provided qualifications are equivalent to the requirements of Missouri at the time of graduation. Such equivalency shall be defined as--

(6) If an individual was licensed by waiver as a practical/vocational nurse in another state or territory or foreign country prior to July 1, 1955, and the individual meets the requirements for licensure as a practical nurse in Missouri which were in effect at the time the individual was licensed in the other jurisdiction, he/she is eligible for licensure in Missouri as a licensed practical nurse. If an individual is licensed by waiver in another state after July 1, 1955, he/she does not qualify for licensure by waiver in Missouri as a practical nurse.

Note: This does not change any procedures currently followed, but cleans up the language of the rule.

DECEMBER BOARD MEETING

The Missouri State Board of Nursing will be in session December 1-2, 1983, at the Holiday Inn, Cape Girardeau, Missouri. The meeting will convene at 9:00 a.m. on December 1 and dismiss at 12:00 noon on Dec 2. A Public Agenda will be published approximately one week prior to the meeting. This meeting is for the purpose of discussion of issues and provides the Board an opportunity to interact with nurses in various areas of the state. The Board invites your attendance and participation.

RULES AND REGULATIONS PUBLICATION

A request was made at the August 31-September 1 meeting for a publication from the State Board of Nursing of the current rules and regulations. A special Newsletter will be printed in the very near future, with these rules and regulations. We suggest you put this issue in a file or binder and as new revisions are available, we will publish these in the Newsletter.

NURSING EDUCATORS: Mark your calendars for March 20, 1984. Dr. Marguerite Schafer of the University of Pittsburgh (PA.) will present a one-day workshop on application of the contingency model of management in health organizations, schools and in personal life.

Time and place will be announced later.

Continuing education credits are being applied for.

TASK FORCE FOR CHEMICALLY DEPENDENT NURSE

The Task Force for the Chemically Dependent Nurse met on October 2, and October 22, 1983. Eleanor J. Sullivan was elected as Chair and Jan Polizzi as Secretary-Treasurer. The Task Force is in the process of developing a Philosophy and criteria for selecting acceptable treatment centers for chemically dependent nurses. The Task Force is searching for sources of funding.
